

User Manual

This Library has 5 modules :

- 1) Search/Home: In the search home module when the librarian enters the search query, the matching results will be displayed below. The search result will show the following details: Title of the book, ISBN, Authors, Publisher and Pages.
- 2) Check Out: When librarian clicks on the hyperlink of book title, he/she will be redirected to the check out page, where on entering a valid card id the book will be checked out. Appropriate message will be displayed if the card id is wrong or maximum limit for that card id has reached.
- 3) Check In: in the check in module the librarian can enter card id, isbn or borrower name upon which the details of the book checked out will be displayed. The librarian can check in a book by selecting the radio button for that book
- 4) Borrower Mgmt: Using this module the librarian can add a new user.
- 5) Manage Fines: On Clicking the Fines Mgmt. tab, you will be shown a table with outstanding fines and can perform the following:
 - a. Pay Fines : Pay the payable amount for that card_id
 - b. Refresh Fines: This button will synchronize the fine information in the library
 - c. Show/Hide Paid History: This will enable or disable the filter to show historic fine details
